

HAND HYGIENE PRIOR TO DEPARTURE

An ambulance or transport vehicle is considered a Clean Health Care Worker Zone (green) when entering to attend a case. Always perform hand hygiene prior to entering a Clean Health Care Worker Zone (your vehicle). Hand hygiene prior to entering this area ensures there is no cross contamination from your previous activities to your clean area, and your patient.

CLEAN HEALTHCARE WORKER ZONE

Conduct hand hygiene before entering a Clean Healthcare Worker Zone.

HEALTHCARE WORKER ZONE

Conduct hand hygiene before accessing clean equipment e.g. in overhead lockers and medication draws.

PATIENT ZONE

Conduct hand hygiene before and immediately after leaving the Patient Zone.
